HW2 – Read Me

The game takes place in a Winter Wonderland-based world. The story involves a little Capybara, the main character, that wants to spend its holiday watching the Christmas Tree. The player has to help the Capybara to pass a few trials so that its dream comes true:

- The first task*: The Capybara has to enter the house and go to the tree so that its journey begins;*
- The second task*: After being teleported, it has to flee to a safe place, because some enemies are running after it;*
- The third task: *An important mission has been assigned: it has to take the candy back to the Candy Land;*
- The fourth task*: Finding the key: (Because the little candy has come home safely, the Capybara receives a hint: The key to its house is near the forest, in one of the barrels.);*
- The fifth task*: Using the key, take the Capybara back home to its beloved tree.*

In the making of the game, we are using:

- *multiple static objects with textures;*
- *an animation (the snowflakes falling);*
- *first camera perspective;*
- *the keys that are used in the game are: UP, DOWN, LEFT and RIGHT keys for the player movement;*
- *2D GUI System that:*
    - *displays a short description about the game;*
    - *has a button "START" for the player to press so that the game begins;*
    - *tells the player when a new task has come and also when the game ends;*
    - *changes the number of trees in the forest;*
    - *changes the color of the sky.*
